

Gustavo Leindecker Pereira

Front-end Software Engineer

Porto Alegre, RS, Brazil

<https://gusleindecker.dev>

<https://www.linkedin.com/in/gusleindecker/>

PROFESSIONAL SUMMARY

Front-end Software Engineer with 17+ years of experience building web applications with JavaScript and TypeScript. My strongest framework experience is in Vue.js, complemented by over a year of cumulative work with React and Next.js on internal CMS tools and personal projects. Experienced in reusable UI components, responsive interfaces, accessibility, and extensive use of Testing Library, alongside Jest, Vitest, and Tailwind CSS. Comfortable using Claude and Codex within established AI-assisted development workflows. Based in Brazil, with C1 English and native Portuguese.

EXPERIENCE

June 2025 - Present

Freelance Front-end Engineer / UX/UI Designer

Self Employed

- Providing front-end engineering and UX/UI consulting for projects using React, Next.js, Vue.js, and Nuxt.
- Designing and developing **responsive, accessible** interfaces with a focus on **usability** and **performance**.
- Collaborating with clients and cross-functional teams to deliver features from concept to production.
- Built my personal CV website with Next.js: <https://cv.gusleindecker.dev/>.

August 2025 - August 2026

Senior Front-end Engineer

Allstacks

- Built performant, scalable, and accessible web applications with Vue.js.
- Led the migration of core components from Vue 2 to Vue 3, modernizing the codebase.
- Collaborated with product and backend teams to define technical approaches and deliver solutions.
- Used Vite, Webpack, Vitest, ESLint, and Prettier to maintain code quality.

July 2024 - June 2025

Team Leader

Software Mind

- Led a team of 6 consultants across multiple projects, ensuring high-quality delivery and client satisfaction.
- Provided technical **mentorship** and **guidance**, supporting both individual growth and team performance.
- Conducted regular 1:1s and team syncs to maintain alignment, resolve blockers, and foster **collaboration**.
- Championed team morale and cohesion, enabling smooth project execution and consistent delivery outcomes.

July 2022 - June 2025

Senior Front-end Engineer

Software Mind - Consultant at DealerOn

- Modernized CMS platforms serving thousands of automotive dealerships, improving **performance, scalability, and developer efficiency**.
- Led the creation of **reusable UI libraries** and internal **npm packages**, accelerating delivery and ensuring product consistency.
- Introduced **unit testing** with **Vitest** and **Testing Library**, reducing bugs and strengthening code quality across teams.
- **Mentored developers** and established engineering standards that scaled with company growth.
- Worked on React-based and Vue.js-based internal/CMS tools alongside upgrades to legacy Vue.js systems.

July 2021 - June 2022

Senior Front-end Engineer

Software Mind - Consultant at Oliver Wyman

- Developed **MultiRail Web**, a strategic freight planning tool used for scenario simulation and capacity optimization.
- Built scalable UI components and **advanced data visualizations** with **Vue.js**, **Highcharts**, **Mapbox**, and **AG-Grid**.
- Improved design-to-dev handoff and frontend best practices, **raising delivery speed and consistency**.
- Improved UX, making complex planning tools more intuitive.

October 2019 - July 2021

Senior Software Engineer - Front-end Specialist

ADP

- Built and maintained **Vue.js-based UI component libraries**, enabling reuse and consistency across multiple internal applications.
- Developed internal tools, including Incident Tracker and monitoring dashboards, improving **performance**, **reliability**, and **developer efficiency**.
- Implemented **comprehensive unit testing**, ensuring code robustness and adherence to team quality standards.
- Collaborated with cross-functional teams to **enhance internal workflows** and overall user experience for enterprise applications.

July 2017 - October 2019

Senior Software Engineer - Front-end Specialist

DELL Technologies

- Developed **modern, responsive UIs** for the Customer Portal in Dell Financial Services, **improving user experience** for consumers, SMBs, and enterprises.
- Built applications with **Angular.js**, **Angular Material**, **Sass**, and **HTML5**, integrating seamlessly with **Salesforce** backends.
- Wrote **unit tests** with **Jest**, **Mocha**, and **Chai**, ensuring high performance and reliability.
- Contributed to forward-thinking **UX design initiatives**, enhancing digital customer experiences across financial products.
